Angels – Robbie Williams capo 2

Intro: G

```
                G                          C          G   D
I sit and wait. Does an angel contemplate my fate?
                G
And do they know the places where we go
                        C   Em D
when we're grey and old?
                       Am
'Cause I have been told,
     Am+B C            Em            C
that salvation lets their wings unfold.
                F
So when I'm lying in my bed
                C
thoughts are running through my head
       G
and I feel that love is dead.
F           G         C
I'm loving angels instead.

                 D                      Em
And through it all she offers me protection
                     C                                G
A lot of love and affection, whether I'm right or wrong.
                        D                      Em
And down the waterfall wherever it may take me
                         C
I know that life won't break me
                   Bm                 Am
When I come to call, she won't forsake me
F           C        G(stop)
I'm loving angels instead.

G
When I feeling weak and my pain walks
         C          G   D
down a one way street
          G
I look above
                              C              Em D
and I know I'll always be blessed with love

      F                                      C
And as the feeling grows, she breathes flesh to my bones

      G          F
And when love is dead,
F           C        G
I'm loving angels instead.
                 D                      Em
And through it all she offers me protection
                     C                                G
A lot of love and affection, whether I'm right or wrong.
                        D                      Em
And down the waterfall wherever it may take me
                         C
I know that life won't break me
                   Bm                 Am
When I come to call, she won't forsake me
F           C        G(stop)
